Hold GBTC Token in wallet to earn reflections

Transfer 0 GBTC Token to yourself receive rewards

## STAKING

### 4WMM DRIP

4WMM VDC fees are 11% in and 11% out,

They are distributed in the following way:

- 7% to drip pool
- 2% instant dividend to stakers
- 1% boosted stakers
- 1% burnt

4WMM VDC receives additional rewards in pDAI, from the collected fees in the Counter Party Pool.

Drip pool for each VDC, pays 1% of its balance daily to stakers proportional to their amount staked.

Drip pool for each VDC, pays an extra 0.5% of its 4WMM balance daily to stakers with Boosts, proportional to their Boost position

### pLUSD DRIP

pLUSD VDC fees are 11% in and 11% out, They are distributed in the following way:

- 7% to drip pool
- 2% instant dividend to stakers
- 1% boosted stakers
- 1% burnt

Drip pool for each VDC, pays 1% of its balance daily to stakers proportional to their amount staked.

Drip pool for each VDC, pays an extra 0.5% of its pLUSD balance daily to stakers with Boosts, proportional to their Boost position.

### GBTC DRIP

VOLATILE VDC fees are 11% in and 11% out, they are distributed in the following way:

- 7% to drip pool
- 2% Instant divs
- 1% instant divs to boosted stakers
- 1% Management buybacks

Since there is a 3% transfer fee for GBTC this will apply to deposit withdrawal, and claim; but not to compound, since there is no funds transfer.

## SHORT TERM ROADMAP

VDC's will be launched for 4WMM and pLUSD. After that the 7WMM launch will commence. Cex listings should come shortly before our grand finale, leveraging of pTOKENS which will usher in a new era for Pulsechain and GrowthDeFi. Stake your 4WMM now in the VDC to claim your profits from the leveraging counterparty pool when it launches.
